Floating Ring Magnet Apparatus

Product Image

Description

For demonstrating magnetic repulsion. Comprises of five ceramic ring magnets, 32mm external diameter and a wooden rod on a base overall height 150mm. If the magnets are placed on the rod so that they mutually repel, the floating effect is readily apparent.

Particulars	Catalog No.
Floating Ring Magnet Apparatus	JZ01130

A quality product from JAPSON ideal for use in School Laboratories in developing countries of Asia, Africa and South America.

Standard specifications for school laboratory use. Ideal mix of Quality and Economy. Other configurations and superior quality available for specific use or for developed countries.
