Hot Plate, Rectangular

Product Image

Description

It has temperature range upto 350 degree celsius. Suitable for general purpose laboratory heating. It has a rectangular cast iron plate fixed on a thick mild steel body. Heating elements made of high temperature kanthal wire are fixed beneath the plate. Body is covered with thick layer of epoxy polyster paint to provide a highly screech & heat resistant surface for long lasting attractive finish. Temperature is controlled by an energy regulator with continuous type heat control.
