Kjeldahl Digestion And Distillation Unit Combined

Product Image

Description

One single mild steel tubular stand is provided with two heating shelves, one above the other on lower portion. A fume duct and a heater box are supplied for digestion part. The heaters have individual ON/OFF switches in the upper portion. Another heater box with condenser rack made of brass rods and tubes are given for distillation part. The whole unit is electrically operated on 220 volts AC mains, complete with cord and plug (without glass parts). Thermostatically controlled by a energy regulator.
