# Light Experiment Kit

## Product Image

## Description

Contents of the kit: A set of concave and convex lenses with different focal strengths. A set of plane, convex, and concave mirrors with varying curvatures. Light filters including two polarizing filters and a diffraction filter. A monochromatic light source and a regular light source. A sturdy metal base with holders for securing lenses, mirrors, and filters. A dedicated holder for the light source, ensuring stability when mounted on the base.
