Planetary Mixer

Product Image

Description

A planetary mixer is a multi-purpose piece of equipment with attachments that move in a planetary form and are used for tasks such as whipping and mixing. The mixing blades spin around the vessel's axis and travel in the opposite direction to sweep the whole circle. Our planetary mixer is equipped with cutting-edge mixing technology and a plethora of

functions.

High Quality product for use in Pharmaceutical Industry and Laboratory. Following is made in compliance with International Quality Standards and are manufactured using high-grade components and materials.
