# Tablet Compression Tooling

## Product Image

---

## Description

---

This machine is essential in the production of tablets. The basic function of the Tablet Compression Machine is to compress the upper and lower punch in a die hole, and hydraulic

pressure plays an important part in this process. Tablets are created by compressing the granules with a compression machine.

High Quality product for use in Pharmaceutical Industry and Laboratory. Following is made in compliance with International Quality Standards and are manufactured using high-grade components and materials.
