Wind Vane

Product Image

Description

It meets important requirements for accurate indication of wind direction. It rotates with minimum friction, and is balanced to avoid bias towards any particular direction. Most suitable for mounting on buildings of Meteorological departments.

Wind Vane **Catalog No. 100423**

Disclaimer

The Products details given on this page are indicative in nature and JAPSON reserves the right to change them without prior notice. Buyer is also requested to re-check the specifications and other features of product at the time of order as product development is a continuous process and minor modifications may be made to design based on latest availability, process and design.
